CONTENTS.

FARMERS' BULLETIN No. 1051.—SHEEP ON IRRIGATED FARMS IN THE NORTHWEST:

	Page.
Outlook for sheep production in the Northwest	3
Relation of irrigation to live-stock production	3
Present status of sheep industry on irrigated farms	5
Essentials for success with sheep	7
Organization of 12 representative farms	14
Outlook for further development of the sheep industry on irrigated farms	32

FARMERS' BULLETIN No. 1052.—STANDARD VARIETIES OF CHICKENS.

III. THE ASIATIC, ENGLISH, AND FRENCH CLASSES:

Characteristics of the meat breeds	3
Breeds and varieties	5
Asiatic class:	
Brahma	6
Cochin	9
Langshan	12
English class:	
Dorking	14
Red Cuckoo	16
Orpington	17
Cornish	21
Sussex	23
French class:	
Houdan	25
Crèvecœur	28
La Flèche	29
Faverolles	30

FARMERS' BULLETIN No. 1053.—CONTROL OF CHERRY LEAF-SPOT:

Destructiveness of cherry leaf-spot	3
Description of the leaf-spot	4
Cause of the disease	5
Control measures	5
Conclusions and recommendations	7

FARMERS' BULLETIN No. 1054.—THE LOCO-WEED DISEASES:

Extent and cause of the disease	3
Loco plants	4
Poisoning by loco plants	11
Post-mortem appearances	15
Treatment of locoed animals	16
Destruction of loco weeds	17
Summary	19

FARMERS' BULLETIN No. 1055.—COUNTRY HIDES AND SKINS, SKINNING, CURING AND MARKETING:

Hides, leather, and the producer	3
Sources of hides and skins	3
Condition of country and packer hides and skins compared	5
Waste and economic losses from imperfections	6
Spread between price of hides and price of leather	9
Directions for skinning, salting, and curing	11
Market classes of hides and skins	40
Methods of marketing hides and skins	46
Careless handling and reprehensible practices penalized in markets	49
Selected and graded sales compared with flat sales	50

FARMERS' BULLETIN No. 1055.—COUNTRY HIDES AND SKINS, SKINNING, CURING AND MARKETING—Continued. Page.
Essential points 51
Appendix:
Market prices 53
Exhibits showing market prices and classes and grades of hides and skins 55

FARMERS' BULLETIN No. 1056.—CONTROLLING IMPORTANT FUNGOUS AND INSECT ENEMIES OF THE PEAR IN THE HUMID SECTIONS OF THE PACIFIC NORTHWEST:
Pear growing in the Pacific Northwest 3
Pear scab 4
Insect pests 14
Spray materials 23
Spraying apparatus 30
Technic of spraying 30
Dusting 31
Spraying schedule 33

FARMERS' BULLETIN No. 1057.—CATTLE-FEVER TICKS AND METHODS OF ERADICATION:
Progress in tick eradication 3
Reasons for eradicating the cattle tick 4
Life history of the tick 6
Methods of eradication 11
Dipping 12
Pasture rotation 17
Arsenical dips 21
Properties of substances used in making arsenical dips 21
General composition of dips 23
Making the S–B dip 24
Making the boiled dip 26
Diluting the dip to form a bath 27
Replenishing the bath and correcting its strength 29
Precautions in the use of arsenic and arsenical dip 31

FARMERS' BULLETIN No. 1058.—DESTROY THE COMMON BARBERRY:
Loss caused by the barberry 3
Kill the barberry now 3
The barberry dangerous wherever it is 4
The common barberry an outlaw 4
How Denmark prevented rust epidemics 5
The evidence against the barberry conclusive 5
Don't let the common barberry run wild 6
Dig the bushes by the roots 7
The Japanese barberry harmless 8
How to distinguish the two kinds of barberry 9
Help! 10

FARMERS' BULLETIN No. 1059.—SWEET-POTATO DISEASES:
Field diseases—
Stem-rot (wilt, blue-stem, yellow blight) 4
Black-rot (black-shank, black-root) 8
Foot-rot (die-off) 11
Scurf (soil-stain, rust, Jersey mark) 13
Root-rot 15
Leaf-blight 17
Leaf-spot 17
White-rust (leaf-mold) 18
Storage rots—
Soft-rot 19
Ring-rot (collar-rot) 20
Black-rot 20
Dry-rot 21
Java black-rot 21
Charcoal rot 21
Control of storage rots 22
Digging and handling 23
The storage house and its management 24

FARMERS' BULLETIN No. 1060.—ONION DISEASES AND THEIR CONTROL: Page.
Scope of this bulletin 3
Descriptive key to onion diseases 3
Diseases primarily important in the field 4
Smut 4
Mildew (blight) 9
Leaf-mold 12
Fusarium rot 13
Pink-root 13
Root-knot 14
Farm practice in relation to storage diseases 15
Diseases primarily important in storage and transit 18
Neck-rot 18
Soft-rot 20
Black-mold 21
Smudge (anthracnose black-spot) 22
Summary of control measures 23
Publications on insects and diseases of vegetables 24

FARMERS' BULLETIN No. 1061.—HARLEQUIN CABBAGE BUG AND ITS CONTROL:
Injury to cole crops 3
Descriptive 4
Distribution 5
Life history 6
Food plants 7
Methods of control 9
Summary 12
Publications on insects injurious to truck crops 14

FARMERS' BULLETIN No. 1062.—BUCKWHEAT:
The place of buckwheat in our agriculture 3
Climatic requirements 5
Soils adapted to buckwheat 6
Preparation of the soil 7
Rotations 7
Fertilizers 8
Varieties 10
Seed preparation 13
Time of sowing 13
Germination and growth 14
Method of sowing 14
Rate of sowing 15
Harvesting 15
Thrashing and yields 16
Plant diseases and insect enemies 17
Uses of buckwheat 17
Milling 22
Acreage, production, and value 23
Weight per bushel 23

FARMERS' BULLETIN No. 1063.—TAKE-ALL AND FLAG SMUT, TWO WHEAT DISEASES NEW TO THE UNITED STATES:
Discovery of take-all and flag smut in the United States 3
Losses caused by take-all and flag smut 4
Take-all 5
Symptoms of take-all 5
Flag smut 6
Symptoms of flag smut 7
Control of take-all and flag smut 8

FARMERS' BULLETIN No. 1064.—PRODUCTION OF LATE OR MAIN CROP POTATOES:
Importance of the crop 3
The potato a northern crop 3
Regional zones of late potatoes 4
Soil requirements 6
Crop rotation 6
Preparation of the land 7

FARMERS' BULLETIN No. 1064.—PRODUCTION OF LATE OR MAIN CROP POTATOES—Continued. Page

Application of plant foods 9
Kinds of plant foods 10
Methods of applying commercial fertilizers 12
Varieties to grow 13
Time of planting 15
Importance of good seed 16
Seed disinfection 18
Cutting the seed 19
Rate of planting 22
Planters 25
Depth of planting 26
Level or ridge culture 27
Cultivation 27
Spraying 30
Harvesting the crop 32
Field sizing 35
Storage 36
Summary 38

FARMERS' BULLETIN No. 1065.—THE FLAT-HEADED APPLE-TREE BORER:

A widely known orchard pest 3
Location and nature of injury 4
Food plants 5
Appearance and habits of the insect 6
Natural enemies 9
Methods of control 10
Publications on insects injurious to deciduous fruits 13

FARMERS' BULLETIN No. 1066.—DETERMINING THE AGE OF CATTLE BY THE TEETH:

Number and forms of teeth of cattle at different ages 3

FARMERS' BULLETIN No. 1067.—FEEDING HENS FOR EGG PRODUCTION:

Importance of proper feeding 3
Use of grains and their by-products 3
Balanced rations 4
Egg-laying rations 7
Methods of feeding 8
Quantity of grain to feed 9
Meat feeds make eggs 9
Green feeds, grit, and oyster shells 11
Grain consumed in producing a dozen eggs 12
Publications on poultry raising and egg production 15

FARMERS' BULLETIN No. 1068.—JUDGING BEEF CATTLE:

Good judgment valuable to buyer and feeder 3
Qualifications of a judge 4
Beef type, definition and description 4
Points of the beef animal 5
Parts of the beef carcass 5
Classification used in judging beef cattle 5
Judging fat cattle 8
Judging feeders 9
Judging breeding cattle 10
Score card for fat and feeder cattle 12
Discussion of the score card 13
Score card for breeding cattle 17
Discussion of score card for breeding cattle 17
Procedure in judging 19
Comparative judging 20
Publications on beef-cattle industry 23

FARMERS' BULLETIN No. 1069.—TUBERCULOSIS IN LIVE STOCK, DETECTION, CONTROL AND ERADICATION:

Present knowledge of tuberculosis 3
Early eradication is most economical 3
Tuberculosis a deceptive disease 5

FARMERS' BULLETIN No. 1069.—TUBERCULOSIS IN LIVE STOCK, DETECTION, CONTROL AND ERADICATION—Continued. Page.

Prevalence of tuberculosis 5
Losses of meat food products 8
Cause of tuberculosis 9
Symptoms of tuberculosis 12
Methods of diagnosis 14
The tuberculin test 15
Post-mortem appearances 18
Methods of eradication 18
Measures of prevention 25
Disposal of reactors 28
Retesting 29
Marking animals for identification 29
Appraisement and indemnity 30

FARMERS' BULLETIN No. 1070.—THE FOWL TICK AND HOW PREMISES MAY BE FREED FROM IT:

Present distribution in the United States 3
Hosts 4
Effect of attack 5
The life and habits of the tick 5
Combative measures 9
How to treat infested houses 10
Number of treatments necessary 11
Roost and nest construction 11
Cost of treatment 13
Methods of preventing tick infestation 14
Tick-proof houses 15
Effect of treatment on other fowl pests 15
Useless remedies 15

FARMERS' BULLETIN No. 1071.—MAKING WOODLANDS PROFITABLE IN THE SOUTHERN STATES:

How farm forestry pays 3
Marketing timber profitably 4
Supplying timber for farm needs 11
Utilizing farm timber rightly 14
Profitable employment for winter 19
Protecting woodland from injury 22
Improving woodland by cutting 25
Making waste land profitable 29
Increasing the sale value of the farm 34
Forestry demonstrations in progress 35
Publications on forestry 37

FARMERS' BULLETIN No. 1072.—PRICKLY PEAR AS A STOCK FEED:

Importance of the prickly pear 3
Forms of prickly pear 4
Distribution of prickly pears 5
Spineless forms 5
Spiny forms 7
Composition and value of the forage 7
Soil requirements 9
Moisture requirements 9
Temperature requirements 10
Ideal conditions for growth 11
Propagation 12
Planting 13
Cultivation 16
Time of harvesting 16
Yields 17
Feeding prickly pears 18
Transportation of prickly pears 20
Stability of the spineless character 21
How to obtain prickly pears 22
Fruit and forage varieties 23

FARMERS' BULLETIN No. 1073.—GROWING BEEF ON THE FARM: Page.
Essential items 3
Selecting the cow herd 3
Herd management 5
The kind of herd bull to use 8
Care and feed for the bull 11
Care and feed for the newborn calf 11
Feeding and rations 12
Feeding calves 12
Feeding the cow herd 13
Rations for wintering cows 15
Rations for wintering stockers 17
Rations for finishing calves for baby beef 18
Disposing of stock produced 18
Hogs following steers 20
Equipment for feeding and shelter 20
Dehorning and castration 21
Parasites and diseases affecting calves 21

FARMERS' BULLETIN No. 1074.—THE BEAN LADYBIRD AND ITS CONTROL:
A serious enemy to the bean crop in the Southwest 3
Distribution 4
Habits 4
Life history 5
Natural control 5
Artificial control 5
Summary of control measures 7

FARMERS' BULLETIN No. 1075.—UNFERMENTED GRAPE JUICE: HOW TO MAKE IT IN THE HOME:
The popularity of fruit beverages 3
Types of grape juice 4
Food value and uses of grape juice 5
Methods of Making unfermented grape juice 6
Procedure by the cold-press method 6
Selection of the fruit 7
Extracting the juice from the fruit 10
Sweetening, acidifying, and blending 14
Settling 16
Filtering 17
Transferring to storage containers 17
Initial pasteurization in storage containers 18
Storage of grape juice 22
Bottling and repasteurization in bottles 23
Procedure by the hot-press method 27
Summary of procedure 29
Important points to be remembered 31
